

Beta Sigma Educational – 2019-2020 Program Year
“Music: Puts a Smile on Your Face and Joy in your Heart”

Music is what makes the world go around. Music brings people together. Music captures feelings that cannot be expressed in spoken word. Music is all around us and we have all been captured by its beauty.

This year, our Educational program will revolve around music. You will be asked to share what music means to you. This can be expressed in many ways. You are only limited by your imagination. Here are some examples of what you can do.

- Write a song
- Play your favorite song and tell a story behind that song and what it means to you
- Write a report on a genre of music
- Write a report on a composer, artist or group
- Sing or play a song
- Bring a singer or musician to a meeting to share their music
- Set up an outing to see a concert with the chapter
