

“Anyone who makes you laugh is contributing to your wellbeing. Laughter can shift you out of a bad mood, free you from worry, and put you in a state of joy, even if it’s temporary. For a few precious moments, as your eyes fill with blissful tears, as you run out of breath, as your stomach muscles ache, you will have no other care in the world. If laughter is the best medicine, then funny friends are instrumental to our healing” ~ Emily Maroutian.

And when it does that for a long period of time, like what happened, it eventually starts to give up, which is why he was so sleepy.
