

“Someone once told me to always live for the little things in life. Live for 5am sunrises and 5pm sunsets where you’ll see colors in the sky that are stunning. Live for road trips and bike rides with music in your ears and the wind in your hair. Live for days when you’re surrounded by your favorite people who make you realize that the world is not a cold, harsh place. Live for the little things because they will make you realize that this is what life is about, this is what it means to be alive.” A.Y
